

Lr No. MIS/2014-15/

Dt. 11.02.2015

Circular no. 014
Sub : TSBCL - HPFS Project - Certain instructions issued by CPE -
to start using HPFS software - Reg.

Ref : 1) CPE letter dated : 09.01.2015.
2) CPE letter dated : 21.01.2015.
3) CPE letter dated : 28.01.2015.

The CPE has instructed TSBCL to start using the HPFS system at depots for their day-to-day activities along with the legacy applications vide ref 1st cited.

At the present, in the legacy Visual basic software the e-payment processed challans are download from our e-payment web site and will be updated in the VB software dynamically.

As it is noticed in the HPFS application, there is a manual process to enter e-payment challans. There is no provision to track the e-payment data in updating the challans dynamically in the HPFS application. By entering manual challan willl leads to error, misuse and very difficult to operate huge challans to enter at depots. We request M/s CTEL to make this process dynamic in updating e-payment challans in HPFS application in order to generate the Invoices correctly without loss of Government Revenue.
