## CIRCULAR-Nº 6

**Sub :** TSBCL – MIS section – Depot software – Certain changes in the software - Release version 15.0 (dt. 17.01.2015)- Communicating software – Reg.

\*\*\*

This is to inform that the depots are requested to download the Visual Basic version 15.00(dt. 17.01.2015) for updating. Certain following modifications were carried out in the depot software –

- 1. Billing 700 ml for Star Hotels :** In the existing visual basic software, there is no provision to bill 700ml x 4 pack for Star Hotels. Now Star hotels can Indent 700ml x 4 pack also.
- 2. Form-II breakages with EAL Nos (TP/Itemwise breakage) Transport permit wise:-** The depots were requested to have this report seperately for IML and BEER. Now the report can be generated seperately for IML and BEER.
- 3. Godown stock position :** The report was not printing properly and there was an alignment issue in the software. Now the alignment issue is rectified. Moreover, the report used to generate only when they are pending bills. Now the report is modified to be generated even when they are pending/no-pending bills.
- 4. Modidata.exe :** It is aware that, the Corporte office is sending the softcopy price list to depots for updating the price list in the VB software. In the price list the C.O. is sending certain additional price parameters like basic price, Excise duty(cvd), Assessable value,Assessable fee,VAT,Spl. Margin(MRP rounded-off), Before Issue price rounded-off, old issue price, old spl margin and ASM (Addl.spl.margin) for having total information of each brand price details at depot. To facilitate the same additional fields in the MIS data file, the modidata.exe is sent for updating MIS data fields in the database structure. The following procedure may be followed to execute the modidata.exe.
  - Copy modidata.exe in the current VB directory.
  - Run modidata.exe at the current VB directory for updating.
- 5. Apbclddep.zip :** Addition to the modidata.exe, apbclddep.zip is also sent along with this mail. The following procedure may be followed to execute the apbclddep.exe.
  - The apbclddep.zip must be copied into the current VB directory.
  - Unzip the apbclddep.zip; consists of dbfs, rpts and apbclddep.exe.
  - Now run apbclddep.exe for executing the software.

The depots are requested to update and report the compliance.
