CIRCULAR/079

Date : 29.02.2016

Sub : TSBCI – Implementation of HPFS software – Stacking of Goods in Godown – Reg.

The General Manager(FIN and MIS) during the visit to Depots observed that the Brands being supplied from multiple distilleries are being stacked in single lot which is causing operational issues while scanning at the time of delivery to the Retailers. This is leading to confusion while cross checking the stocks before delivery to the Retailers.

The Chief Managers / Managers are requested to maintain stacking of stocks supplier wise, brand wise. Under no circumstances, the depots should allow stacking of stocks to be unloaded, in already existing lot of different supplier.

These instructions shall be followed scrupulously by the depots to avoid certain operational problems at the depot.

MANAGING DIRECTOR

Copy to the Chief Managers /Managers of IMFL depots.
